**Professor Raymond P Côté, Director, Eco-Efficiency Centre,
Dalhousie University, Canada.**

Professor Ray Côté is a professor with the School for Resource and Environmental Studies at Dalhousie University. His interests have evolved from the management of chemicals and wastes to industrial ecology. He is co-editor of several books including, "Controlling Chemical Hazards", "The Industrial Ecology Reader", and "Business Meets the Environmental Challenge".

Professor Côté is a member of the editorial board for the Journal of Cleaner Production, a columnist for the Journal of Industrial Ecology, and a regular contributor to the Burnside News. He was recently appointed to the Public Advisory Panel for the Environmental Commitment and Responsibility Program of the Canadian Electricity Association.

Professor Côté continues multidisciplinary research into industrial parks as eco-systems and is currently leading a multidisciplinary Industrial Ecology Research and Development Group in Halifax. Prior to joining Dalhousie, Professor Côté worked with Environment Canada for many years.
