

Dae Young Park, Managing Partner
Young & Global Partners, Belgium

DaeYoung PARK is Managing Partner at Young & Global Partners (YGP) where he advises environmental, health and safety policy and regulations of APAC, EMEA, CALA and NA to global companies and does technical lobbying on European policy- and law-making process in EU, Asia and US. With his legal and linguistic knowledge of international, Chinese, Japanese, Korean, Taiwanese and EU environmental and health and safety laws, DaeYoung Park plays an active role to bridge regulatory dialogue and compliance system for private and public bodies in Asia and Europe. YGP assists global companies on their strategic and proactive EHS compliance programs through its Global EHS Regulatory Intelligence System.

Mr. Park studied law at Korea Maritime University, international trade at Kyunghee University, international environmental policy at Roskilde University and international environmental law at Ghent University, and has published extensively on sustainable consumption and production and climate change involving Europe and Asia.
