**Anne-Marie Benoy, Manager of Sustainable Resources,  
Policy Connect, UK**

Anne-Marie is Manager of Sustainable Resources at Policy Connect, and oversees the output of the All-Party Parliamentary Sustainable Resource Group (APSRG) and the Sustainable Resource Forum (SRF). Anne-Marie joined Policy Connect in June 2014 and was lead author of the APSRG inquiry "Triple Win: The Social, Economic and Environmental Case for Remanufacturing", which was co-badged with the All-Party Parliamentary Manufacturing Group and published in December 2014. Alongside organising regular APSRG events and managing stakeholder engagement, Anne-Marie most recently coordinated the production of the APSRG essay collection "Link to Link: Driving Resource Efficiency across Supply Chains" which was published in February 2016. Anne-Marie has a particular interest in sustainable design, the circular economy and consumption geographies. Anne-Marie holds an MA in Environment, Politics and Globalisation and a BSc in Geography both from King's College London. Her past experiences include working in environmental and international development Departments and NGOs in Luxembourg and working as a teaching assistant in a secondary school in London.
