

**Christian Loewe, Senior Expert, Federal Environment  
Agency (UBA), Germany**

Christian Loewe holds a diploma in Forest Sciences and certificates in environmental management and environmental sociology. He works for the Federal Environment Agency (UBA) of Germany since 1993. He is senior expert in the field of SCP/IPP policy development. He is involved as an expert in the international Marrakech Process and coordinates the national dialogue process on SCP in Germany. He also supports the current work of the European Topic Centre on SCP in the fields of integrated policy assessment and stakeholder approaches, like retailer, civil society organizations. His personal interest lies in the question on how to better integrate socio-ecological issues into practical environmental policy making and to strengthen the role of social innovation towards a green economy.
