**Panos Coroyannakis, Director, ISLENET, Belgium**

Panos Coroyannakis is an international energy expert with over 20 years' experience in the energy sector. Panos has a strong background in energy policy, energy systems, demand and supply management, energy efficiency and renewable energy sources, as well as restructuring and privatisation issues of the energy sector in the EU, Central Europe and the CIS.

As the manager of ISLENET, the European Islands Network for Energy & the Environment under the auspices of the Islands Commission of the CPMR, Panos has been involved in over 20 EU funded sustainable energy projects involving European islands covering topics such as waste to energy, bioclimatic architecture, rational use of energy, biomass and biogas, energy storage, hydrogen and other advanced renewable energy technologies.

Prior to joining ISLENET at the end of 2002, Panos held various positions with the Energy Charter Secretariat in Brussels, the European Commission, and the International Energy Agency (in OECD) in Paris and the Government of Ontario in Toronto, Canada. He is a founding member and the treasurer of Marine Hydrogen Fuel Cell Association.

Panos holds a degree in Chemical Engineering from the National Technical University of Athens, Greece (1974), an MBA from the University of Toronto (1985) and a PhD in Engineering from the same university (1986).
