**Frank Becker, Member, Science Shop Kubus,
Technische Universität Berlin, Germany**

Frank Becker is a skilled electrician and political economist. He worked as a Trade Union secretary of IG Metall Berlin from 1988 until 1993. As a management consultant, human resources manager and project manager in the areas of strategy development, regional development, skills development and conflict moderation he was concerned with economic transformation in the course of the German reunification since 1993. Since 2001 Frank is staff member of Science Shop kubus (Co-operation and Consulting for Environmental Questions) at the Berlin Institute of Technology (TUB). Frank's primarily research interests are value-conservation-networks (VaCoN), co-operation networks for sustainable development, local sustainable economy, strategies of reuse, further use and extended use as well as social co-operation networks and social innovation. Frank is the contact at TUB for different enterprise networks in Berlin. He is member of board of the ReUse-Computer association. Frank was engaged in research projects concerning resource recovery and sustainable entrepreneurship, e.g. .hikk – Wood in CreativeCycle, ZeroWIN – Towards Zero Waste in Industrial Networks. In 2012 he was founding member of the community garden "mauergartens" and initiated the repair café BRUNNENVIETEL in 2015. Frank was scholarship holder of Hans-Böckler foundation.
