

Sustainable Innovation 2016 'Circular Economy' Innovation & Design

21st International Conference

7th – 8th November 2016

University for the Creative Arts (UCA), Epsom, Surrey, KT18 5BE
United Kingdom

Welcome

Welcome to the 21st International **Sustainable Innovation 2016** conference focused on 'Circular Economy' Innovation & Design organised by The Centre for Sustainable Design® at the University for the Creative Arts (UCA) in the UK.

Sustainable Innovation 2016 will take place on 7th – 8th November 2016 at UCA, Epsom, Surrey, UK.

This Factfile contains information to assist delegates in organising their participation at this high level event. We hope you find the following information useful and look forward to meeting you at the University for the Creative Arts, Epsom, Surrey, United Kingdom.

Background

Alongside climate change, resource efficiency and productivity has moved up the international political and economic agendas during the 00s and *Circular Economy* (CE) has emerged as a key concept within it. CE thinking is concerned with more 'circular' (as opposed to 'linear') use of resources at each stage of the lifecycle, from extraction through to the 'end of life' and beyond. Prior to this in the 90s, leading countries such as Japan and Germany implemented a range of proactive initiatives aimed at driving resource efficiency in their economies and more recently a CE Promotion Law was passed in China in 2008. CE activity is now emerging at European policy and national standards levels, going well beyond approaches such as 'producer responsibility' focused on the electronics and automotive sectors. A CE policy package was launched by the European Commission in December 2015 with more of a focus on design and product-related issues. A British standard aimed at providing guidance on the implementation of CE in organisations is also being developed which defines CE as being "a systemic approach to the design of business models, enabling the sustainable management of resources in products and services".

Sustainable Innovation 2016 'Circular Economy' Innovation & Design

21st International Conference
7th – 8th November 2016

University for the Creative Arts (UCA), Epsom, Surrey, KT18 5BE
United Kingdom

Research by McKinsey highlighted that adopting CE principles could, for example, benefit Europe environmentally and socially but could also generate a net economic benefit of €1.8 trillion by 2030. Implementing CE thinking in businesses has the potential to use materials much more efficiently and extend product life times by enabling reuse through repair, reconditioning and refurbishment. To enable this, a key issue will be the integration of CE considerations into the creativity and design stages of the product development process. A shift to a CE mind-set may also lead to the recognition of new opportunities related to new disruptive business models ranging from dematerialised services enabled through ICT to the strategic design of new systems to enable, for example, the remanufacturing of photocopiers, engines and other platform based products. CE will also drive new materials development and technology. For example, the 1st phase of 3D printers using recycled plastic filament and bio-plastics are now emerging.

However, there are still many challenges in implementing CE at a company and product level. This includes lack of awareness, understanding and knowledge especially at SME level and the need to build new infrastructure and systems. For example, many B2B companies have no idea about what happens to their products and the 'end of life' due to lack of customer pressure and/or recognition of innovation opportunities. As we move forward, key questions that will emerge over the next 5-10 years will include: what is the relationship between CE and climate change mitigation/adaption? How will CE be implemented in global supply chains? How will increased diffusion of CE impact on design, innovation and new business models? And what re-skilling and re-training will be needed to enable CE to be implemented?

Concept

Sustainable Innovation 2016 will provide a platform to discuss the opportunities and challenges related to **Circular Economy Innovation and Design** related to products, services, technologies and new business models. **Sustainable Innovation 2016** will include invited and refereed papers from academics, consultants, entrepreneurs, technology providers, designers and innovation and sustainability directors as well as other business functions. The event will create a unique space for learning, networking and thinking. Delegates will come globally from large companies and SMEs, as well as academia, government and non-governmental organisations. The conference is supported by an international Advisory Board.

Sustainable Innovation 2016 'Circular Economy' Innovation & Design

21st International Conference
7th – 8th November 2016

University for the Creative Arts (UCA), Epsom, Surrey, KT18 5BE
United Kingdom

Conference Topics

Sustainable Innovation 2016 welcomes conceptual and research-based papers focused on **Circular Economy Innovation and Design**. Papers should cover business model, innovation, product, service and/or technology design, and development and commercialisation issues related to the following topics:

- | | |
|--|----------------------------------|
| ➤ Radical change | ➤ Design management & strategies |
| ➤ Disruptive innovation | ➤ User centred design |
| ➤ Market transformation | ➤ Product-service-systems (PSS) |
| ➤ Sustainable consumption & production | ➤ New technologies & materials |
| ➤ Green growth & economy | ➤ Biomimicry |
| ➤ Low carbon innovation | ➤ Innovation processes |
| ➤ Eco-innovation | ➤ Organisational dimensions |
| ➤ Product policy | ➤ Product design & development |
| ➤ (New) business models | ➤ Supply chains & networks |
| ➤ Product sustainability | ➤ Fab labs & makerspaces |
| ➤ Re-use, repair & remanufacturing | ➤ Repair cafes |
| ➤ Makers, modifiers & fixers | ➤ Marketing & communications |
| ➤ Open innovation | ➤ Tools & methodologies |
| ➤ Crowdsourcing | ➤ Case studies |

Why Attend?

Sustainable Innovation 2016 will provide a range of benefits to speakers and delegates:

- | | |
|-----------------|---|
| • Unique: | Forum for new thinking, ideas and concepts |
| • Leading-edge: | Presentations from key international researchers, practitioners and policy-makers |
| • Content: | New research, results and thinking |
| • Networking: | Opportunities to meet business, government and academia |
| • Track-record: | Over 2000 delegates from over 50 countries have attended previous events |

Sustainable Innovation 2016 'Circular Economy' Innovation & Design

21st International Conference

7th – 8th November 2016

University for the Creative Arts (UCA), Epsom, Surrey, KT18 5BE
United Kingdom

Benefits of Attending

Sustainable Innovation 2016 will provide a range of new contacts, knowledge, information and ideas.

- New Contacts: 80%
- New Knowledge: 64%
- New Information: 64%
- New Ideas: 58%

Source: 107 respondents from survey of delegates to Sustainable Innovation conferences 2008 – 2012

Conference Organisers

The Centre for Sustainable Design® (CfSD) was established in 1995 at the University for the Creative Arts (UCA) in Farnham, Surrey, UK. CfSD has built world class knowledge and expertise of sustainable innovation and product sustainability. The Centre is recognised worldwide for its knowledge and expertise, having worked closely with business, policy making and research communities for two decades. The Centre researches, develops and disseminates understanding of present and future sustainability impacts and solutions related to innovation, products, technologies, services and systems through projects, training, events, networks and information. The Centre has led and participated in a range of high quality research and knowledge transfer projects worldwide and has organised hundreds conferences, workshops and training courses. CfSD works with partners in Europe, North America and Asia to deliver high quality results and is an internationally recognised centre of excellence.

University for the Creative Arts (UCA) is a specialist arts and design university based on four campuses: Epsom; Farnham; Canterbury and Rochester. UCA has seven schools – 3D Design, Architecture, Communication Design, Fashion, Film & Media, Fine Art, and Further Education. UCA campuses include workshops for ceramics, glass, wood and metals where students can experiment under the supervision of technicians with extensive industry experience in their field. There is extensive studio space in painting, sculpture, fashion and film-making; radio and TV facilities for trainee journalists; stop motion equipment for animators; and an industry-standard Gerber suite for fashion pattern cutting. The university has created a unique community for its students, where like-minded people can share in the creative process and inspire one another. Creativity is the energy that drives everyone here to invent, explore and collaborate. When you study at UCA, you'll get the opportunity to immerse yourself in an unrivalled creative vibe, find your own style and create the extraordinary.

UCA's campuses offer cutting-edge creative environments, packed with the latest equipment and resources, which creates unique communities of artists, designers, makers, writers and researchers. Collaboration between courses is encouraged, with fine artists studying with film-makers, and fashion designers working alongside architects. In this way, UCA students benefit from exposure to a range of disciplines. UCA alumni include, Karen Millen and Zandra Rhodes in the world of fashion; jeweller, Stephen Webster; Oscar winning animators, Michael Dudok de Wit and Suzie Templeton; artists, Humphrey Ocean and Tacita Dean; and, textile designer Roger Oates.

21st International Conference

7th – 8th November 2016

University for the Creative Arts (UCA), Epsom, Surrey, KT18 5BE
United Kingdom

Travelling to UCA Epsom by Train (& Foot)

Take a **National Rail** train from London Waterloo or London Victoria to Epsom. It is five minutes' walk from Epsom station to the University, opposite Rosebery Park in Ashley Road. As you leave the station turn left down Station Approach, then right down Waterloo Road. Cross the High Street into Ashley Road (you will need to be on the left hand side of the road). Walk past Heathcote Road and the University is on the left.

Eurostar passengers should get off the train at London St. Pancras International, then take the **Underground** (Victoria Line - Southbound) to London Victoria, or change at Oxford Circus for the Bakerloo line - Southbound to Waterloo.

Travelling to UCA Epsom by Car

On the A3 from London, exit at the Tolworth Roundabout take the A24 heading for Epsom town centre. When you enter Epsom town centre, pass under the railway bridge, bear right into the main High Street and keep to the left hand lane, turning left at the lights into Ashley Road. Keep to the left hand lane and the University is on the left just after the turning for Heathcote Road.

From the M25, take the A24 from junction 9. Follow the road through Ashted into Epsom, bear right onto the High Street (the clock tower will be on your right). At the next main set of lights turn right into Ashley Road. Move immediately into the left hand lane and the University is on the left just after the turning for Heathcote Road.

Travelling to UCA Epsom by Air

It takes between one and two hours to drive from Heathrow, Gatwick, Stansted and Luton airports to UCA Epsom. The same journeys take between two and three hours by train. There are rail connections from all the airports via central London to Epsom, where you can walk or take a taxi to the University.

Arriving from Heathrow Airport

Option 1:

Take the **Heathrow Express** to London Paddington Station. At London Paddington take the **Underground** (Bakerloo Line - Southbound) to Waterloo, then take a **National Rail** train from London Waterloo Station to Epsom. From here either walk or take a taxi to the University.

Estimated journey time: 2h 00m (From Heathrow to Epsom station)

Approximate travel price: £30

Option 2:

From Heathrow **Underground** Stations take the Piccadilly Line (Eastbound) to Green Park Underground Station. Change and take the Victoria Line (Southbound) to Vauxhall Station. From Vauxhall Station take the National Rail Train to Epsom. Duration: 1h 40m

Price: £10.60

Sustainable Innovation 2016 'Circular Economy' Innovation & Design

21st International Conference

7th – 8th November 2016

University for the Creative Arts (UCA), Epsom, Surrey, KT18 5BE
United Kingdom

Arriving from Gatwick Airport

Take the [Gatwick Express](#) to London Victoria Station, where you can take a [National Rail](#) direct train to Epsom and then walk or take a taxi to the University.

Estimated journey time: 1h 10 (From Gatwick to Epsom station)

Approximate travel price: £20* (including Gatwick Express)

Arriving from Stansted Airport

From Stansted Airport Parkway take the [Stansted Express](#) to London Liverpool Street Station.

Take the [Underground](#) (Circle Line - Clockwise) to Victoria. From London Victoria Station take a [National Rail](#) train to Epsom and then walk or take a taxi to the University.

Estimated journey time: 1h 20m (From Stansted Airport to Epsom station)

Approximate travel price: £31-00*

Arriving from Luton Airport

Take [Luton Airport Shuttle](#) (£2-£3) to Luton Airport Parkway.

From Luton Airport take a [National Rail](#) train to London St. Pancras International, then take the [Underground](#) (Victoria Line - Southbound) to Waterloo (changing to the Bakerloo line - Southbound at Oxford Circus).

From London Waterloo take a National Rail train to Epsom.

Estimated journey time: 2h (From Luton Airport to Epsom station)

Approximate travel price: £25*

For latest information you can see the links above or you can ask the staff at the Airport Train Station on the day you travel about the best way to get to Epsom station on the day. Also please bear in mind Sunday services will take much longer than has been displayed in the information above.

Taxis

Apex Car Hire – 0208 3938222 (Heathrow to Epsom = £35.00) Gatwick to Epsom = £32.00) – UCA preferred supplier.

Viceroy Car Hire – 01372 722222

Lady Safe – 02083938100

725000 Taxis – 01372 725000

About Epsom

Epsom is a town in the borough of Epsom and Ewell in Surrey, England. Some parts of Epsom are in the Borough of Reigate and Banstead and Mole Valley District. The town is located 20.6 miles (21.9 km) south-south-west of Charing Cross, within the Greater London Urban Area. The town lies on the chalk downland in the valley of Epsom Downs, and is home to the racecourse, which holds the world-famous Epsom Derby every year. The name 'Epsom' is a shortened form of Ebbisham - 'Ebbi' was a Saxon landowner and the early village was known as a 'ham' or 'hamlet'. In 1618 Henry Wicker, a farmer on Epsom Common, noted that his cattle refused to drink at a certain pond, even during the dry summer months. The water was found to have curative effects. The first known record of the efficacy of Epsom salts was made by Abram Booth, a Dutchman in London on a diplomatic mission, in 1629. In his book 'Tour through Great Britain' published in 1724, Daniel Defoe describes Epsom as "wholly adapted to pleasure", rural and wide open in contrast to the confinement of London.

In medieval times, both Epsom and Ewell were small rural communities, with Epsom being smaller than Ewell. The major event for Tudor Ewell was the building of Nonsuch Palace by Henry VIII in 1538 to celebrate thirty years of his reign. The church and village of Cuddington were wiped away so that the Palace could be built. Henry wanted an impressive building, one which was bigger and better than any other contemporary building hence the name "Nonsuch". The Palace was surrounded by parkland stretching all the way to Hampton Court. The building was little used by royalty and was demolished in 1670, and the surrounding parkland sold off as farmland.

Epsom is a Market town in the county of Surrey, home to twenty seven thousand people, and was granted it's Market Charter by Richard 11 back in 1394, which still continues to be held today. Once famed for being a Spa Town with healing Epsom Salts which enticed many a visitor, now the enticement of the famous Epsom Downs Race Course beckons, and is home to The Derby which started back in 1780. Her Majesty The Queen attends and it's a good excuse to dress up on Ladies Day and spot the best hat. The winners in 1844 and 1913 were not the horses first past the post. In 1844, Running Rein was found to be an ineligible 4-year-old horse named Maccabeus. In 1913 the 6/4 favourite Craganour was disqualified in controversial circumstances with the race being awarded to 100/1 outsider Aboyeur. The 1913 race is more famous for the protest by suffragette Emily Davison, who ran in front of King George V's horse, Anmer. Emily died of her injuries 4 days later. This wasn't the first time that a Derby runner had been brought down by a spectator. It also happened in 1805.
